Projects

MINTSTARGRAM

Renesis Tech

Mintstargram is a cutting-edge social media platform tailored for content creators, leveraging blockchain technology to redefine digital interaction and ownership. Built with a robust stack comprising Next.js, TypeScript, Nest.js, GraphQL, MongoDB, microservices, and Redis, this platform serves as a hybrid between Twitter and an NFT marketplace. Users can mint their creations as NFTs, fostering a new form of content monetization. It features real-time feeds, trending topics, direct messaging, and a comprehensive NFT marketplace. Mintstargram's innovative approach to content distribution and ownership empowers creators and transforms audience engagement in the digital space.
